

To My Brother

If you could only see what I have seen
On Steely round legs and lemon gene
I've climbed mountains in my day
But only in my mind I have to say
I couldn't walk but I did dream
Of the things that hope can stream
I've loved puppies and cold beer
My family I held most dear
Friends have been my treasure
Years did reap their measure
But I didn't leave anything behind
No unfinished business comes to mind
I had it all
I had you all
My summer is over and my last Fall
Yet the seeds of spring hang on my wall
Children of my brothers and sisters in law
Ready or not Danny Joe
We have to leave when it's time to go
The only advice I've to give
Is value every day you live
Mom promises to see you again some day
Dad says we'll call the Hogs when they play

Until then, Love you
Dennis
